

Report of the World Bank

Report of the World Bank, drawn up at the request of the Ministry of Entrepreneurship and Technology: Towards the innovative Poland: Entrepreneurial discovery process and analysis of the needs of enterprises in Poland

The report drawn up in the years 2014-2015 by the World Bank, following the request of the Ministry of Entrepreneurship and Technology (former Ministry of Economy), was aimed at preparing recommendations in the scope of actions undertaken for the entrepreneurial discovery process. The pilot project was implemented in dolnośląskie, śląskie, świętokrzyskie and zachodniopomorskie voivodeships. The project results are used by the Ministry of Entrepreneurship and Technology and the Polish Agency for Enterprise Development in their actions, aimed at updating and finding new smart specialisations, developing project initiatives and stimulating co-operation between entrepreneurs and scientists.
